

Why Choose

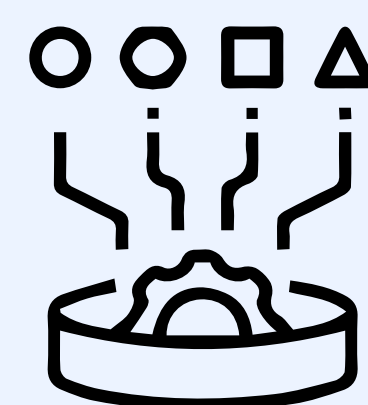

Persivia partners with healthcare providers and payers in transitioning from Fee-For-Service to Value-Based Care. Our AI-driven Persivia CareSpace® Platform supports all data sets, VBC models, and care venues. With over 15 years of experience in AI, we specialize in Care Management, Risk Adjustment, STARS Management, Cost and Utilization Management, and Risk Stratification, rooted in our history of developing and launching AI-centric Population Health Management platforms

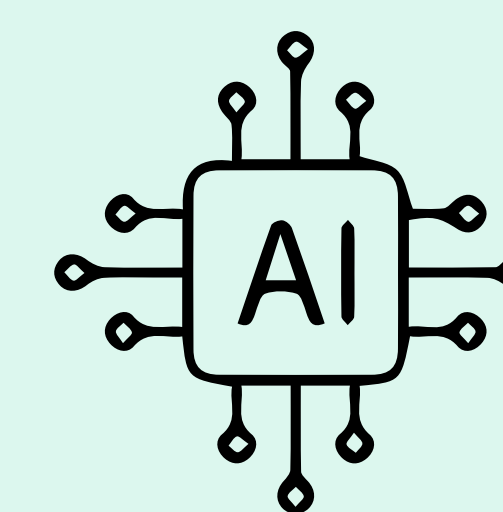

Over 15 years of Experience

in driving clinical excellence and IT innovation
