

How Persivia helped McLaren Realize \$34 Million in Shared Savings?

A single integrated AI-driven platform positions McLaren to generate tremendous operational efficiencies and savings

14
Hospitals

1140+
Practices

4400+
Providers

20
EHRs

Challenges

Complex Data Integration

Managing a complex ACO with 5+ value based contracts, and over 20 EHRs, claims feeds, HIE, and ADT data feeds

Efficiency in Risk Stratification

Previous methods were insufficient and slow

Rapid Deployment

Needed solutions deployed within 60 days

Provider Efficiency

Too much time to access longitudinal patient records at the point of care

Achievements

Achieved a **10x** increase in efficiency in **Risk Stratification**

Rapid deployment completed in just **60 days**

Realized **\$34 million** in shared savings through effective management and data utilization

Persivia's Swift Solutions

1

Persivia CareSpace®, a single Integrated platform

2

Streamlined Data Integration

Integrated over 20 EHRs, 7 claims feeds, along with HIE and ADT data feeds

With Persivia's complete delivery of a single platform solution, our clinicians have less 'clicks' to get at a true longitudinal medical record view of a patient right at the point of care.
